## **Application and further procedure**

1. A separate application must be submitted for each room.
2. The processing of applications is carried out in accordance with the VSÖ recognition procedure for “strong rooms in cast in situ construction that are not tested according to EN 1143-1” TRVE 10-3 in the last version.
3. Only complete applications, including all documents and documentation required for recognition, can be processed.
4. The VSÖ assigns a court-certified expert/ civil engineer and sends him the application including enclosures.
5. After successful examination, the court-sworn expert/ civil engineer submits an audit report to the Technical Commission in the VSÖ.
6. The Technical Commission decides on the application on the basis of the audit report.
7. The validity of the VSÖ recognition expires if subsequent changes to the strong room, in particular openings, holes have been attached.
8. The applicant will be invoiced by the VSÖ for the costs for the commissioned services in accordance with the applicable price list.
9. The applicant receives the test report, the certificate and the authorization to order a label.

## **The applicant acknowledges:**

- the procedure for the recognition and registration of products.
- that there is no legal claim to this acceptance by the VSÖ.
- that appeals against decisions of the Technical Commission of the VSÖ are not admissible.
- that the exclusive place of jurisdiction for a legal relationship arising from this application shall be the the competent court in Vienna.
