^{*)} see page 2 for the selection of product groups

Procedure for the registration of products

1. Submission of the application to VSÖ with all necessary enclosures for the products listed in the application in German or English. Each product in the application must be assigned to one of the VSÖ product groups*) listed below.
Note: All test and certification bodies approved by the VSÖ can be seen at <https://vsoe.at/produktsuche/ueber-vsoe-produkte.html>.
2. The VSÖ commissions a court-appointed expert / civil engineer and sends him the application including enclosures.
3. After the examination, the court-appointed expert / civil engineer submits a test report to the Technical Commission within the VSÖ.
4. The Technical Commission shall decide on the application on the basis of the examination report.
5. The VSÖ notifies the applicant of the decision of the Technical Commission and sends a VSÖ-certificate for each product if the decision is positive.
6. Every product approved by the VSÖ is included in the VSÖ database; also the VSÖ certificate is published on the VSÖ-website at <https://vsoe.at/produktsuche.html>.
7. The VSÖ invoices the applicant for the testing costs for the ordered services in accordance with the applicable price list.

The applicant acknowledges:

- the procedure for the recognition and registration of products
- that there is no legal claim to an acceptance by the VSÖ
- that appeals against decisions of the Technical Commission within the VSÖ are not permitted
- that the exclusive place of jurisdiction for any legal relationship arising from this application is the competent court in Vienna
